

**Kara MacGregor**  
**BAAID, Fellow IDC, IDNS, NCIDQ, LEED AP**  
**Principal at MAC Interior Design Inc.**

15 years ago, Kara along with her business partner Dawn MacLachlan, purchased the firm where they worked from its owner. Since then they have continued to develop their multi-sector firm with Kara focusing primarily on hospitality projects. Her work spans across Canada and occasionally into the U.S.

She specializes in creating designs that respond to the local culture of the project's setting and in producing concise bid and build documents to allow remote construction with consistent successful results. With a focus on building financial success for her clients through design, her projects consistently deliver solid long-term financial gains.

Kara strongly believes in volunteering to support her profession by engaging at local, national and international levels.
