

DesignEx Ottawa Seminar 2/Workshop - Caliente or Ice Blue

Content:

Presented by Benjamin Moore, this seminar informs attendees of the latest and greatest colour design trends. Attendees will then be able to apply their new knowledge in a fun and interactive audience engagement activity where they will try to determine whether various colours are a hot trend or a past trend.

This seminar accounts for 1 IDCEC hour.

Presenter:

Danielle Dent

Architectural Design Representative, Benjamin Moore

Danielle Dent is a Canadian Architect and Design Representative with Benjamin Moore in Toronto. She has worked in the paint and design community for over 8 years and plans to continue growing her relationship in the A & D community. She is passionate about the paint industry and teaching her clients all about product and colour. She strives to weave her energy and passion for architecture and design into delivering the best product and educational support to her A & D clientele. Danielle is always actively collaborating with architect and design teams and ensuring that their projects are successful by using Benjamin Moore products on their specifications.
